Aquamantra Is Putting Its Water Where Its Mission Is...

Los Angeles, CA June 20th, 2006—Aquamantra is proud to support the efforts of Los Angeles' KPFK, 90.7 fm during their summer fund drive. KPFK, 90.7fm is a non-profit, liberal radio station that broadcasts from North Hollywood all the way to Santa Barbara and San Diego. The station proudly broadcasts many shows that are community based as well as nationally syndicated. The station was founded in the 60's as a voice for the people and still stands strong in today's very corporate owned media playing field.

The mission of the station is to bring truthful information to the airwaves as well as to encourage people to ***“think for themselves rather than just follow the masses”***. This is where Aquamantra's mission is in alignment with KPFK's...Aquamantra's bottled water promotes healthy living, being loved and being lucky through their unique and leading-edge packaging. Aquamantra encourages you to remember that, ***“You Are What You Think, and Now You Are What You Drink”***.

To learn more about Aquamantra bottled water, listen to Alexandra Teklak, founder of Aquamantra, during her interview on KPFK's, The Aware Show, Thursday, June 22nd at approximately 2pm. You can tune into KPFK via regular radio at 90.7fm or via the Internet at kpfk.org.

CATCH THE AQUAMANTRA WAVE AT www.AQUAMANTRA.com

Alexandra Teklak is available for interviews.
Aquamantra is available regionally in California, locations available on the website.
